## "LIBERTY AND HUMANITY."

"Rebellion can never defeat the flag's blessed mission of liberty and humanity." This is the last Duty and Destiny utterance of President McKinley before an audience of sane, intelligent Americans in some place in northern New York, in discussing the purpose of the government in the Philippines. It is a well sounding sentence, but what a travesty on common sense! Rebellion? Where is there any rebellion? How can the Filipinos rebel against American sovereignty when such sovereignty never existed in the islands? The Malays of the island of Luzon were patriots when fighting for freedom from Spanish tyranny. We approved their claims to liberty, and aided them in the struggle. We agreed with them that Spain had no rightful rule over a people who had battled for a hundred years against foreign tyranny, and shown that they were entitled to the boon of self government. Humanity demanded their release. This was the American cry a few short months ago. The supporters of McKinley joined in it. Their blood tingled at the thought of Spanish oppression of a people, brave and noble enough to give up life in the struggle for political liberty.

We stand to-day in the position that Spain then occupied, except that she had the shadow of title to sovereignty, which we denied, but paid \$20,000,000 to remove the shadow. Did this transfer of gold from Washington to Madrid change Philippine patriotism to treason? Can the glory of a struggle for liberty be changed by the substitution of oppressors? If the American people had seen that the war for Cuban liberty would be supplemented by a war of conquest, and the holding of acquired territory by force of arms and without the consent of the governed, the former war would never have been inaugurated nor a dollar appropriated for its conduct. If humanity demanded political independence for the people of the Philippines ten months ago, has the humanity proposition changed by what Senator Stewart calls "the fortunes of war"?

In the cause of humanity we drove the Spaniards out of Cuba, that the people of that island, our next door neighbor, might be free and independent, the masters of their own soil after years of oppression. The cause of the Philippine was the same as the Cubans. They suffered the same oppression, they fought as long and longer and as nobly for liberty. Had the administration offered them at first, choice between annexation or an independent government, the former might have been accepted. But that is impossible now. No such offer was made and war was prosecuted for the conquest of the islands and the subjugation of a people to be held in bondage by military force. And yet a President of the United States declares that the war in the Philippines must go on in the interest of "liberty and humanity." Liberty out of the cannon's mouth! Humanity at the point of the bayonet!

PLEASE name your authority for the statement that the aggregate mortgage amount in Nebraska is greater than ever before, but remember that newspaper statistics, whether Republican, Democratic or Populist, will not be accepted.—Gazette.

The Republican papers for the last year have been presenting statements, not statistics, to prove the contrary. The JOURNAL's assertion was based upon accredited statistics from the records published in a Nebraska paper. If the Gazette will put up the where-with, the JOURNAL will send a reporter to every County Recorder's office in Nebraska, to personally examine the records, and to report under oath the result. But joking apart, the Twinkler's is absolutely the weakest and most silly proposition that ever came under our journalistic notice.

The Gazette is of the opinion that the better behavior of the returning volunteers over those Philippines bound, is attributable to the salutary effect of military discipline. As the gentlemanly returners are not under such discipline, while the blackguardly outgoers are, the profound wisdom and logic of our twilight contemporary can not fail to inspire the admiration of the inmates of the Nevada Hospital for Mental Disease.

The San Francisco Post has an article on "The Dangers of Bryanism." McKinleyism has passed the danger point to that of assurance of the downfall of everything American in the event of its continuance.

## A GRATIFYING ENDORSEMENT.

In his lecture at Elko Mr. Newell pointed out that other states have harbors and rivers for the improvement of which Congress makes appropriations each year. Nevada has none of these, and secures no appropriations. The suggestion was made that an effort be made to have Congress make an appropriation, which could readily be secured were it needed for river or harbor improvements, to establish storage reservoirs in this State, which are quite as necessary for the State's development as are improved rivers and harbors in other communities.

The Silver State in commenting upon the above remarks, says to secure an appropriation, Mr. Newell pointed out that Nevada's representatives in Congress must work in harmony and unceasingly. Immediately there comes the rub. The state has but one Congressman, and is, in effect, unrepresented in the Senate. But little can be done under such conditions to secure an appropriation for storage reservoirs or anything else.

The JOURNAL has persistently urged that a portion of the money appropriated under the head of "Internal Improvements" be diverted from the rivers and harbors to the storage of water in the arid land districts. It is the only paper in the State that has ventilated the subject, and it feels complimented that its views are endorsed by so eminent and practical a man as Mr. Newell. We agree with the Silver State in its estimate of the the Senators who hold down Nevada's seats in the Upper house of Congress. Perhaps, however, the time will come when we will have Senators who can spare a little time from their Southern Pacific railroad duties to attend to such a little matter as water storage in the State from which they hail upon the Senate roll call.

QUAY had control of the Pennsylvania State convention. That was to be expected. He owns the party machinery and the decent Republicans, disgusted with the prevailing methods of that party in the State, took to part in the selection of delegates. They will be heard from, however, at the election.

## FRESH GOLD CROPS.

Localities Where the Precious Metal Deposits Itself Annually.

There are several localities where gold may be said to grow every year or, in other words, where fresh deposits of the precious metal are to be found annually.

One such district is in the Edmonton country, in the Canadian northwest, where, after the spring floods, from the same banks and "benches" of the Saskatchewan river there are taken every year considerable quantities of gold by a few diggers, who make their living out of the business.

But the most conspicuous and interesting case of this sort is to be seen near Ichang, in the province of Hupeh, in China. For many centuries past each year gold has been washed from the banks of coarse gravel on both sides of the river Han, and in the midst of the auriferous district there is an ancient town called "Mik-tien," which means "gold diggers' inn." Its inhabitants subdivide the gold bearing ground among themselves annually, staking out their claims with partitions. They pay no royalty and appear to earn no more than a bare subsistence. But this may be doubted, as John Chinaman is an adept at "layin low and sayin nuffin."

The annual river floods bring down millions of tons of mud and sand from the mountains, and this mud and sand, which is charged with gold, both "fine" and in flakes, is deposited to a depth of six inches or more on the banks of gravel. It is in the winter that the gold is washed, and it is said that seven men work about 20 tons of "pay dirt" in a day.—Cincinnati Enquirer.

## Seizing the Opportunity.

"Miss Amanda," said the somewhat elderly but well preserved bachelor to the sparkling young woman with whom he occasionally spent an evening, "I think it is a shame the way you treat that young Hankinson. If I were he I wouldn't let you play fast and loose the way you do. I would simply come and carry you off."

Upon which Miss Mr. Upagain immediately spoke, and the invitations are out.—Chicago Tribune.

## A Fair Jury.

In a suit between father and son before a Hoosier justice of the peace the sextet comprising the jury came in after three hours' deliberation with the following impartial verdict: "We the jury agree to find judgment for neither plaintiff nor defendant and find that each pay half the costs." It is said the verdict struck every one as being so unusually fair that even the parties to the action were satisfied.

A. R. De Fluente, editor of the Journal, Doyleston, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. I tried Chamberlain's Pain Balm and was surprised to receive relief almost immediately. The pain balm has been a constant companion of mine ever since and it never fails." For sale by W. Pinniger.

"We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth."—D. S. Meekle, general merchant and farmer, Mott, Bedford county, Pa. For sale by W. Pinniger.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany, N. Y., dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Schulz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. For sale by W. Pinniger.

## IT WILL BE A HOT RACE

Argument on Merits of Horse Flesh  
Leads to a Wager by Two  
Dead Game Sports.

"I will let you pick your fastest horse and my slowest and will race you any time, any distance, any money, and if that isn't sufficient satisfaction I'll —"

The two gentlemen, addressed and addressee, were respectively George Wingfield, owner of the Golconda stable, and F. P. Schwartz, who has also a string of racers in training at the fair grounds.

The conversation leading up to this offer was in the nature of an argument as to the merits of Wingfield's Nellie Van and Mafada, owned by Schwartz. Nellie Van is the holder of a coast record and Mafada is one of the speediest sprinters that ever struck the Sagebrush State. Both animals, it is unnecessary to state, are thoroughbreds.

In less time than it takes to write it, Louis Bevier was holding \$120 forfeit money, and it was agreed that next Sunday afternoon at 2 o'clock Mafada and Nellie Van were to run three-eighths of a mile at the fair grounds for a \$500 stake.

At this date, is even money and a chance to see a record knocked into a cocked hat.

### The Coming Recital.

The song recital to be given next Friday evening in the University gymnasium offers an opportunity for all who wish to hear Miss Stanaway before her return to Boston. It was only at the urgent request of many friends that she consented to sing once more before returning to her studies in the east.

Those who heard the rising young prima donna at her last recital are enthusiastic in their praises and universally express a determination to hear her again, and those who did not attend are desirous of doing so now. It is for these reasons that Miss Stanaway, although feeling the need of rest, has consented to sing once more to her townspeople.

### May Make a Deal.

Captain Mills of San Francisco, who is almost exclusive owner of the Great Western group of copper mines, situated about eleven miles northwest of Reno, is there awaiting the arrival of some prospective purchasers of the valuable group.

A new method of treating ore of this class, by process of electrolysis, has greatly reduced the expenses of operating mines of this sort and increased the value of the properties in like ratio.

Mining Expert Root of San Francisco is here inspecting the property and seems very favorably impressed with the outlook.

### COMMISSIONERS MEETING.

Ordinance Adopted and Sewerage Discussed.

The Board of County Commissioners met and adopted an ordinance drawn up by District Attorney Williams relative to numbering the houses of Reno preparatory to the introduction of a free mail delivery.

According to a clause in the old ordinance adopted by the City Council, County Clerk Porter will have charge of the numbering. The price is not to exceed 15 cents per number; the even numbers will be one side of the streets and the odd numbers on the other side.

A number of citizens living south of the river appeared and requested that action be taken at once in regard to putting in a sewer on Mill and State streets. Commissioner Hymers said the sewer would cost about \$5,000 and necessitate a great deal of work, but the board agreed that work should begin as soon as the county funds would permit, or when money could be raised by other means.

The committee of citizens agreed to be present at the next regular meeting of the board, when the matter will be thoroughly considered.

It was stated by the board that they are ready and anxious to meet the Fire Trustees at any date for the purpose of formulating new engine house plans.

The board then adjourned until September 5th.

### Announcement.

I have just received a complete line of working and dress shirts of the latest patterns and styles, which I will sell at bedrock prices. I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the same.

I have all the latest patterns in golf and negligee shirts, in silks and madras cloths.

I am pleased to announce that I have secured the agency of the Wheeler overall, famous on this Coast as being the best fitting and most durable overall on the market. It is rivited, triple-sewed and made of the heaviest and best denim. Try a pair and be convinced.

Free employment office in connection with the store.

### Bartlett Springs Water.

The Reno Mercantile Company is doing a land office business in hardware, groceries, provisions and especially in the Bartlett Springs Water trade. The company is sole agent for that celebrated water which is used at all first class hotels in the United States. It is growing in popularity every day and is away in the lead of all other mineral waters, not only on the Pacific coast but all over the Union. It retains its mineral qualities indefinitely after bottling, and is as palatable and refreshing after years in glass as when first taken from the Springs. A case of it will answer the same purpose as a visit to its fountain head which is one of the most popular resorts for health seekers on the American Continent.

### Bidders are Notified.

The State Agricultural Society will receive bids addressed to the Secretary of the Society for the fair ground premises during fair week at Reno, Nevada, till the 11th day of September, next at the hour of 12 o'clock at noon on that day, and awards will be made on the afternoon of said day. The Society requests the bands of the State to send by September 11th to the Secretary of the Society proposals to furnish music during the fair, stating prices.

### Ask the Virginia "Report."

Some of the Silver party papers are trying hard to make it out that Lieutenant-Governor Judge is a bona fide resident of Nevada. The real question is, how long would he have been a resident if it hadn't been for that \$1,800 a year bonus? Rather a goodly sum to pay for the loan of a piece of ornamental brick-a-brac; but then, the State is prosperous and the taxpayers don't care—at least, they don't seem to.—Times Review.

### On His Rounds.

Professor or Wilson went up to Starr Valley this morning. He will put in the rest of the week sampling the soils of Starr and Fort Halleck, and then return to Reno to assist in the opening of the University. He will then return and make a thorough tour of the county as his time will permit.—Elko Independent.

### Justice Court.

William Sullivan pleaded guilty to a charge of vagrancy and was sentenced to 50 days.

Arthur Hennsey, who was found guilty of a similar charge last Thursday, was given a sentence of 80 days by Judge Linn.
